FROM: John F. Schunhoff, Ph.D. 
Interim Director

SUBJECT: **GRADUATE MEDICAL EDUCATION QUARTERLY REPORT
SECOND CALENDAR QUARTER (APR - JUN) 2008**

The Graduate Medical Education (GME) Quarterly Report for the second calendar quarter of 2008 is attached. Information contained in this report is compiled and reviewed by the Office of Clinical Affairs and Affiliations for all Los Angeles County sponsored residency training programs as follows:

I. Training Program Accreditation Status and Housestaff Totals (Attachment I)

John F. Schunhoff, Ph.D.
Interim Director

Robert G. Splawn, M.D.
Interim Chief Medical Officer

<u>Total Housestaff:</u>	<u>1,479</u>	(Academic Year 2007-2008)
LAC+USC	903	
Harbor-UCLA	488	
Olive View	88	

On May 21, 2008 the Accreditation Council for Graduate Medical Education (ACGME) notified the Program Director of Cardiology at LAC+USC Medical Center of its decision to withdraw accreditation of the Cardiovascular Medicine Fellowship Program, the Interventional Cardiology Fellowship Program, and the Cardiac Electrophysiology Fellowship Program effective June 30, 2009.

The options are to appeal the withdrawal decision or to restructure the program and apply for provisional accreditation as a new program effective July 1, 2009. The status of provisional accreditation implies that a program is in its developmental stages. This status can be conferred when a program's accreditation has been withdrawn and the program applies to become newly accredited. The institution will make every effort to restructure and reestablish new cardiology programs at LAC+USC Medical Center prior to June 2009.

II. Medical Specialty/Subspecialty Board Certification Results (Attachment II)

Medical specialty/subspecialty board certification results for 1,506 housestaff who completed County training programs from 2005 through 2007 are presented in this report. The results demonstrated a 42.32% increase in board certification achievement since the last verification in October 2007. The next verification of board certification status will occur in October 2008, which will finalize results for 2005, provide updated results for years 2006 and 2007, and provide new results for residents and fellows who complete training in 2008. Drew University voluntarily withdrew from its role as primary institutional sponsor at Martin Luther King-Harbor (MLK-H) Hospital effective July 1, 2007, however, certification reporting for MLK-H will continue until the 2007 candidates are deleted from the three-year running totals.

III. Facility Compliance with Resident Supervision Guidelines (Attachment III)

Quarter Four of Calendar Year 2007 Summary

System-wide audit results for fourteen (14) of seventeen (17) resident supervision indicators met or exceeded the eighty percent (80%) compliance threshold. Aggregate

313 N. Figueroa Street, Suite 912
Los Angeles, CA 90012

Tel: (213) 240-8101

Fax: (213) 481-0503

www.dhs.lacounty.gov

*To improve health
through leadership,
service and education.*

www.dhs.lacounty.gov

totals for three (3) indicators failed to meet the compliance threshold, therefore, opportunities for improvement continue to exist. Corrective action plans, addressing noncompliance, are required to be submitted to the facility governing body for review. Facilities demonstrating the best performance and/or a greater than fifteen percent (15%) improvement receive annual cash awards for the purchase of equipment for patient care. The system's "Best Performer" for quarter four (4) of 2007 was Olive View-UCLA Medical Center with a total compliance rate of ninety-eight percent (98%).

If you have any questions or need additional information, please let me know.

Glossary of Program Accreditation Status

Accredited

Subspecialties only - A Review Committee confers the status of "Accredited" when the dependent subspecialty program has demonstrated substantial compliance with program requirements.

Accreditation with Warning

Subspecialties only - A Review Committee may grant "Accreditation with Warning" when the dependent subspecialty has been found to have one or more area of non-compliance with program requirements that are of sufficient substance to require prompt correction.

Continued Full Accreditation

"Continued Full Accreditation" status is conferred when a Review Committee determines that a program continues to demonstrate substantial compliance with program requirements.

Favorable

"Favorable" status is conferred when a Review Committee determines that the institution is in substantial compliance with the essential components of Graduate Medical Education.

Full Accreditation

A Review Committee grants "Full Accreditation" when a program holding provisional accreditation or probationary accreditation demonstrates substantial improvement and/or compliance with program requirements.

Initial Accreditation

"Initial Accreditation" is conferred when a Review Committee determines that a proposal for a new program substantially complies with all program requirements.

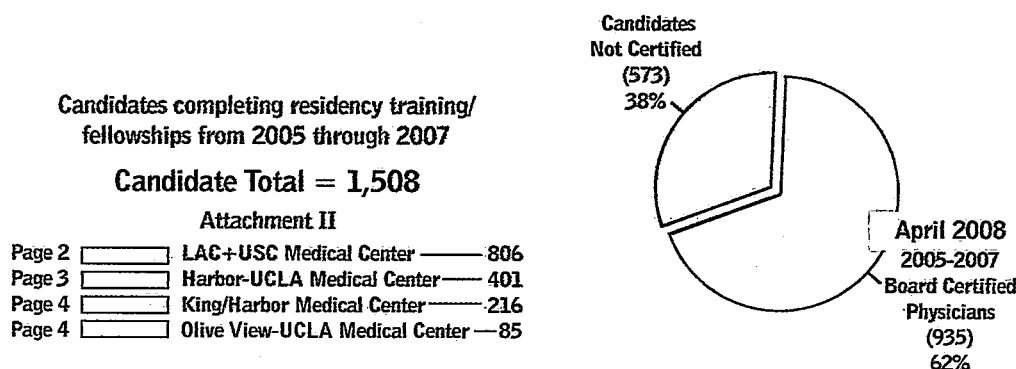

Probationary Accreditation

"Probationary Accreditation" is conferred when the Review Committee determines that a program has failed to demonstrate substantial compliance with program requirements.

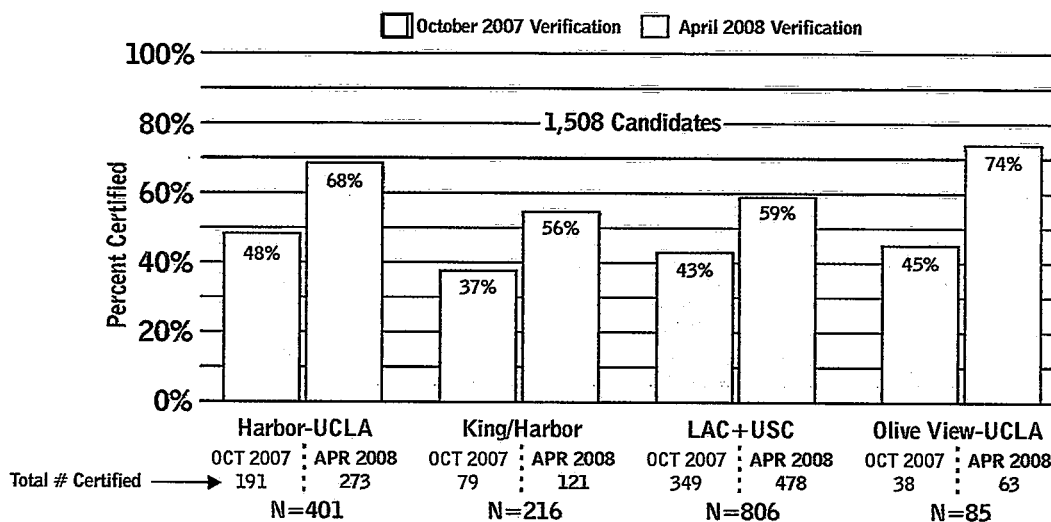

Provisional Accreditation

New programs go through a period of "Provisional Accreditation" which implies that a program is in the developmental stage. Provisional Accreditation can be conferred when a program's accreditation was withdrawn and the program has applied to become newly accredited.

Medical Specialty/Subspecialty Board Certification Los Angeles County Trained Residents and Fellows 2005-2007

2005-2007 Summary Board Certification Verification Results by Facility as of April 2008

The April 2008 results demonstrate an overall increase of 278 candidates (42.32%) who achieved board certification since the October 2007 verification. Candidates who complete training in Obstetrics and Gynecology, Ortho Surgery, Urology and Emergency Medicine have in-practice requirements to complete in order to become eligible for certification testing. In-practice requirements in these specialties range from 12 months to 24 months therefore, the more recent annual verifications produce zero results.

NOTE:

Medical specialty board certification is verified bi annually. The next verification report, to occur in October 2008, will provide final certification results for 2005, update results for 2006 and 2007, and incorporate new results for candidates who complete residency/fellowship training in 2008.

- Obstetrics and Gynecology** candidates, after passing the qualifying written exam, must provide unsupervised patient care for at least 12 months prior to admission to the certifying oral exam. Certification results reflect little or no change due to the additional time requirement
- Orthopedic Surgery** candidates must first qualify by passing the written exam. There are two certifying exams. The candidate must pass the oral exam prior to admission to the clinical on-site exam. There are little or no changes in the verification results due to a 22-month in-practice requirement
- Surgical Pathology** is not yet an ACGME-recognized fellowship nor is it an American Board of Pathology subspecialty. Surgical Pathology programs, sanctioned by the ACGME began under the auspices of Selective Pathology. In order to practice Surgical Pathology, the fellow must pass the Anatomic Pathology portion of the primary certifying exam.
- Urology** candidates have two qualifying requirements. After passing the written exam, candidates must engage in a minimum of 18 months of urological patient care before qualifying to sit for the certifying oral exam. Certification results reflect little or no change due to the additional time requirement

Los Angeles County Department of Health Services Audit of Compliance with Resident Supervision Guidelines DHS Policy Number 310.2

Calendar Year 2007, Quarter Four Summary

In the fourth quarter of calendar year 2007, nurses from the Department of Health Services' Quality Improvement Patient Safety Program (DHSQIPS) audited each teaching facility abstracting compliance information for seventeen inpatient indicators. The indicators, based on resident supervision guidelines, included eight surgical indicators, three ward/discharge indicators, three ICU indicators and three invasive procedure indicators.

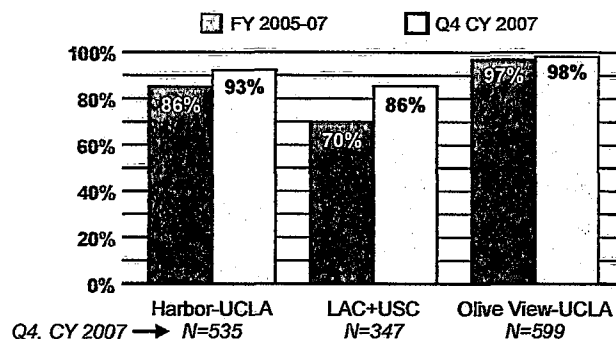

Data was collected from a sampling of hospital discharges with focus on the following services:

FACILITY	SERVICES
Harbor-UCLA	Family Medicine, Cardio/Thoracic, Colorectal Surgery
LAC+USC	Cardiology, Otolaryngology, Hematology
Olive View-UCLA	Gynecology

Findings

System aggregates demonstrated significant improvement from previous years. Each facility aggregate exceeded the expected 80% compliance threshold for the fourth quarter of calendar year 2007 as follows:

System Aggregates: Seventeen Inpatient Indicators FY 2005-07 compared with Q4, CY 2007

NOTE:

Sample sizes are based on the projected number of annual discharges per service

Findings (continued)

Although the overall findings reflected continued improvement for 14 indicators, opportunities for improvement continued to exist. The 80% threshold was not met for three indicators at LAC+USC Medical Center:

○ **Non-compliance with
80% Compliance Threshold**

INDICATOR	LAC+USC
If Attending was not present, the medical record reflects that the supervisory resident discussed the case with the Attending who authorized the procedure	63%
ICU: Attending documented evaluation of patient and discussed with resident within 24 hours of admission to the ICU	30%
ICU: Attending documented daily evaluation of patient or, resident documented his/her daily eval that was discussed with attending	38%

Each service failing to meet the 80% compliance threshold will continue to submit, to its facility governing body, corrective action plans addressing each deficiency.

○ **Q4 of CY 2007 Best Performers**

CY 2007	QTR 1	QTR 2	QTR 3	QTR 4
Surgery	LAC+USC Olive View	Olive View	Olive View	Olive View
Ward/DC	Olive View	Olive View	Olive View	Olive View
Residents	LAC+USC	Harbor	Harbor	Olive View
Patient Informed	LAC+USC	Harbor Olive View	Olive View	LAC+USC Olive View
Attending Responsibilities	Olive View	Olive View	Olive View	Olive View

Next Report

The next report will present resident supervision audit results for the first quarter (January through March, 2008) of calendar year 2008.
